

a middle-aged family man, with a loving wife, son and daughter. The son is 10 years old, while the daughter is only 10 months old. He moved to his new locality just now. So let's look into the daily habits and lifestyle of John Doe.

- ◆ At 5 a.m. John's smart band starts vibrating letting him know that it's time to wake up.
- ◆ As soon as John wakes up and start stretching in preparation for his workout, at 5:06 a.m. his smartwatch dictates the weather forecast to him.
- ◆ At precisely 5:15 a.m. John is ready for his jog wearing his smart shirt, smart pant, smart socks, smart shoes and smart glasses.
- ◆ John jogs for 45 minutes. So, at 5:55 a.m. his smart watch again signals him to start heading towards home.
- ◆ While heading home, John almost twists his foot but his smart socks detect his wrong foot movement and vibrate to signal to him that he's running wrong. John immediately stops.
- ◆ When John stops running, he notices that he doesn't recognises the area and doesn't know how to get home. So he just asks his smart band to take him home by giving his smart shoes and smart glasses the address of his house.
- ◆ While going home, he's about to take a wrong turn, but his smart shoes start vibrating to stop him. He then turns to the right path after looking at the glasses.
- ◆ When he reaches home, he is notified by his smart band to take his juice and vitamins at 6:15 a.m.
- ◆ After a refreshing shower, John begins dressing for work when he receives a notification about an important meeting. Accordingly, he chooses a crisp white shirt and gray suit for the meeting and goes downstairs to have his breakfast.
- ◆ But during breakfast, the juice decides to make its way onto John's shirt. So what does John when his band indicates that if he didn't leave in five minutes he'd be late for work? He goes out into the sun and stands facing the sun so that his titanium dioxide nanocrystals coated shirt can clean itself.
- ◆ Now that John is ready to leave for his office, so he asks his band again to guide him there. The directions to his workplace are then projected onto his dashboard monitor.
- ◆ After a rigorous day at office, John heads home and wants to contact his wife to let her know he's heading home, but realises his communicator
