

examples and case studies, we try to analyze what often works and what doesn't when it comes to saying something on Facebook, Twitter, Instagram, LinkedIn, Google+ and Tumblr. We also discuss tools and software solutions that helps any budding social media manager to effectively look after and manage different social profiles and create the desired impact in its community of followers.

Lastly, while we introduce to all the tools and tricks of the trade at a social media manager's disposal, we also warn you against practising undesirable tactics to gain a temporary upper hand in what's clearly a marathon and not a sprint as far as social media success goes. There's clearly no shortcut to success.

We hope you find this booklet's topic useful. If we've missed out any specific tricks or you liked something in particular, do drop us a line at editor@digit.in. Happy social media management to you!
