

Pro(s):

Effectively manage Twitter accounts using a single tool

Con(s):

Add-ons on similar products make this one a little old

4. TweetReach

Whereas the name Tweetbot just makes clear it's a tool for Twitter, TweetReach makes it explicit that the tool is meant for monitoring how far your tweets have travelled. And delivers pretty well on that front too. The tool measures the actual impact as well as the implications of social media discussions. The tool is particularly useful for discovering your most influential followers so that you can target them specifically when sharing online content.

**Pro(s):**

Effective for assessing the traction for a tweet

Con(s):

Not a comprehensive SMM tool for tweets

5. Klout

Klout is a tool that measures influence by engagement on Twitter. What

THE KLOUT SCORE

The Klout Score is a number between 1-100 that represents your influence. The more influential you are, the higher your Klout Score.
