

Once you've opened the app, choose "Certificate Assistant" and then "Request a Certificate From a Certificate Authority.."

Once you're at the Certificate Assistant window, fill in your name and email address and "Save to disk" then "Continue".

Once you're done saving it somewhere on your Mac, go back to your browser and find the "Choose file" button, and click on "Submit".

Apple will take some time to generate the certificate, it could take a

few minutes or longer. Your certificate status may say "Issued" but your certificate won't be ready till a download button appears.

While you wait, you should go ahead and take care of some other stuff that you'll need to do anyway. At the bottom of the "Current Development
