

iPHONE SECURITY

How to secure your beloved icompanion

The iPhone is the world's most selling item. Let that sink in. The Presidents of many countries use iPhones. They took the world by storm. Pretty much the vini vidi vici story. It was Steve Jobs' brainchild not even a decade ago and the rest is history. However it is not impervious to attacks of all kinds. As a matter of fact, it is more of a challenge to the vicious hackers to break into this fort Knox and it has happened many times. Apple gives a lot of stress on security and much of it is mainly because of Jobs' desire of exclusivity. Complete exclusivity was a necessary price to pay for a 'virus-free' environment. However, if you own
