

Makeup, hair styling, fashion content make up for over 5 billion hours YouTube content. And you better believe than there's more content to be consumed than most other topics.

## Cover songs

Talented musicians can think of covering songs and putting them on YouTube. Using already famous songs has the advantage of bringing a set audience to you.

## Dance

If you can shake a leg, why not do that in front of the camera? More than 24 million YouTube dance videos exist. But we are pretty sure that not all moves have been covered.

## Fail-videos

The second ever video on YouTube was that of a person falling off a snowboard. Since then, there has been no dearth of fail videos on YouTube. Let's admit it- we can't help but laugh at other people failing at the most simplest tasks.

## How-to videos

Some of the most popular searches on the "how to" category include "how to kiss" and "how to get a six pack in 3 minutes." But that doesn't mean

The audience looks to look better!

There's always a tune to play

Move in style!

Even failure has its place!
