

SHOW ME THE MONEY

YouTubing is a great way to make a living. You can literally make millions, here's how!

Introduction

YouTube has some of the most mind boggling stats you will ever come across. A survey states that around 300 hours of videos are uploaded to YouTube every minute. This means that by the time you are done reading this sentence, more than 50 hours of new video content will have been uploaded online. It has a staggering user base of 1.3 billion users and is the second most used search engine on the internet after Google.
