

Atleast according to The richest Youtuber, PewDiePie, 'No, they aren't'. We list down the pros and cons of joining a Multi Channel Network here.

Pros

- MCNs can help you get brand deals. They will approach the brands on your behalf, negotiate the financial aspect of the deals, and take care that you are paid what you are worth, because, well, that is how they will get paid.
- Many MCNs offer copyright protection. This doesn't mean that you can use copyrighted content but, that their network will receive a strike instead of your channel, and in case of a false contentid claim, they will dispute it and handle all the issues
- Most of the MCNs work with a large number of channels. This will give you a chance to collaborate with other YouTube artists easily. Also, they will help you get celebrities for your videos.

Cons

- You will be splitting the revenue with them. Already the money you are making from your advertisements are split between you and YouTube. The MCN you signup with will take a share from your cut of the revenue.
- Many MCNs make promises they can't keep. These hollow promises may include anything from getting you celebrities that never show up, to brand deals and sponsorships they told you about in the beginning, but you never get.
- The most important part of joining an MCN is the contract you sign. Many big MCNs have recently come under lashback fromt the YouTube community because of the shady fine print they put up in their contracts. There have been instances where YouTubers have lost copyright to their own content because they missed out on some detail in the contract. If you decide on signing up with an MCN, make sure you negotiate well, and get what you want written down in the contracts. Also go through the contract in details not once, or twice but thrice, and make sure you didn't miss out on anything.

So the final question- Are MCNs worth joining?

See, an MCN won't increase your revenue directly. You'll still be making money through YouTube's advertisements, and even from that you will be paying a cut to the MCN. A good MCN can surely help you increase your
