

to invest additional up to \$800, which is very expensive. There should be an effort to manufacture Scorpio in such a way that all the existing VR headsets will be able to make use of the console.

Xbox Scorpio console will launch at the end of 2017. However, be prepared to throw in plenty of money since the console will be expensive. We can't predict the cost now but it will be more than the currently available Xbox One console. However, few tech portals have reported that the upcoming Scorpio will be available from \$399 onwards with few unknown sources stating that the cost will go up to \$599.
