Nintendo Switch will be the first gaming console expected to hit the retail shelves in 2017. The company has refuted allegations that the Switch will directly compete with the PS4 Pro since the console is mainly oriented for a different market. Meanwhile, gaming titles such as 'The Legend of Zelda: Breath of the Wild', 'Super Mario Odyssey' and 'Mario Kart 8 Deluxe' will be available for the new Switch console.

According to the rumor mills, Nintendo Switch will be compatible with the upcoming refresh of Pokemon Go AR-based game coupled with high-end graphics. The Pokemon Go AR-game will launch in 2017 but it will happen only after the official launch of the Switch console. Furthermore, Eurogamer revealed that the Pokemon Go will be a combined version of Sun and Moon.
