06

PAGE

What are best practices?

Why are they talked about so much? Are they just a bunch of academic hogwash or do they have any real implications?

14

PAGE

Consequences of bad practices

When software is badly written, it can end up causing unforeseen and often disastrous outcomes.

22

PAGE

Methodologies

A number of standard methodologies have proven to be highly beneficial for software development.

34

PAGE

Best practices for architecture

It's always smarter to spend more time on structuring from the beginning rather than restructuring later.

43

PAGE

Buy vs Build

Should you spend money on buying a solution or rather build it on your own? We explore both the sides.
