

pare to have to carry a well-organised case if you're not sure where your presentation is going up. Or, carry a pen drive!

With the mini and the Pro, there are more options – the mini offers two Thunderbolt 2 ports as well as an HDMI one, while the Pro offers three dual-cable 5K displays (for the big screen) as well as six Thunderbolt displays.

Audio - mouth and ears

Both desktop Macs – the iMac and the iMac Pro – have built in stereo speakers, high quality microphones and the standard 3.5 mm headphone jack. The mini and Pro offer a wider range of options – not just in-built speakers, but also line in/out audio jacks for digital as well as analog sound, and the multi-channel audio supporting HDMI cable.

Mac – Accessorize!

The iMac is a full-fledged desktop computer, and comes with the standard peripherals. Besides the beautiful standalone monitor cum CPU that has already been discussed, there are, as expected, a mouse and keyboard, albeit with the Apple touch. There are a few other accessories that go hand-in-hand with the Mac for any savvy user. Read on.

Magic Keyboard (optionally with Numeric Keypad)

The Magic Keyboard is Apple's wireless keyboard. It offers a decent typing experience. This Lithium ion rechargeable keyboard makes typing effortless. Best part? It's charged using the good old Lightning connector, Apple's standard connector to connect and charge the iPhone, iPad and iPod via USB.

Magic Mouse

The Magic Mouse is the first multi-touch capable mouse, innovated by Apple to allow for a more intuitive and user-friendly set of control gestures. Before you ask, yes, it has a right click. After the initial learning curve, users get used to being able to manoeuvre their Apple desktops, swiping and scrolling almost as if it were a touch-screen phone. It runs on 2 AA batteries and a Bluetooth connection make pairing easy.

How do you spot a true Mac user?

Mac users are spoilt. There's no doubt about that. Once you go Mac, you don't go back, the popular adage from design freaks everywhere – has more than a little truth to it.
