

tion of a touch bar which lets you access tools in the context of whatever app you are working on. Moreover, the device ships with Radeon Pro graphics with 4GB GDDR5 memory unlike Intel HD graphics in MacBook and MacBook Air. The processor provides support for turbo boosting and the SSD storage enables fast read/write speeds. More here: http://dgit.in/app_macbook_pro

The latest MacBook Pro features an advanced touchbar

Hardware specifications

MacBook

The MacBook is equipped with a 12-inch LED IPS display with a resolution of 2304x1440 paired with 226 PPI and 16:10 aspect ratio. You have an option to buy MacBook with either 256GB and 512GB internal storage. The 256GB storage model is available in Intel Core m3 processor running at 1.2GHz and Intel Core i5 clocked at 1.3GHz. However, the 512GB storage

MacBook has a large speaker grille and fairly decent audio output
