

the Mac models running Sierra, however, some features tied to the Apple ecosystem might need additional hardware. For instance, auto unlock using Apple Watch will only work with Mac models introduced after 2013. Similarly, for the Universal Clipboard to work, you need post 2012 Mac.

Similarly paying using Apple Pay on Mac needs either the latest MacBook Pro with Touch ID or a Mac model introduced after 2012 along with Apple Pay enabled iPhone.

To optimise storage, macOS will automatically upload files to iCloud. However, the free space available on the iCloud is 5GB and will be used up quickly. You'll need to buy additional storage for the feature to work flawlessly.
