

HOMEPOD

Finally a voice activated speaker from Apple. Does it have what it takes to beat the competition?

HomePod is a smart speaker manufactured by Apple. The HomePod is a multi-room Siri-enabled speaker similar to that of the Amazon Echo and Google Home. The product was announced on June 5, 2017 at the Apple Worldwide Developers Conference (WWDC) held in San Jose, California. However, the HomePod speaker will be available for sale in December 2017 in space gray and white variants.

The Device

The HomePod is a powerful speaker designed to deliver a great audio experience. By integrating with Apple Music, the speaker provides instant access
