

HOW DO YOU LIKE *THEM* APPLES?

This month (and the next!) we take a close look at all that Apple has to offer. It's time to become an insider.

We'll readily admit – we've bashed Apple on quite a few occasions over the years. And for good reason. But we'll also be the first to admit that Apple is the undisputed king in several aspects of tech which it has traditionally been good at. For instance Macbooks have pretty much the best build quality you can find in an ultraportable laptop, the Mac Pro has excellent acoustics
