

If you'd prefer a visual guide, we got you covered as well

than any Android tablet. Mind Boggling isn't it? There were both WiFi only and WiFi+3G model available and the starting price was around \$499. Apparently, the price was right because Apple sold a million units of the iPad in just half the time they took to sell a million units of the iPhone 1, and went on to sell 15 million units. In fact, more iPads were
