

Nexus Tablets

Yet another iPad competitor that fell by the wayside

We might be berating a point here but seriously – when people think of tablets, they think of iPads first and foremost. Apple has had a stranglehold on this increasingly niche market for many many years now. But this isn't to say that there haven't been competitors for the crown. One of the fiercest challenges to the iPad was from Google. The Nexus line wasn't just for phones – there have been 4 different tablets under the same aegis as well. Here is a quick rundown on them

The Nexus 7

The one that started it all. The Nexus 7 was the result of Google being pretty impressed with the Asus Eee Pad MeMO ME370T tablet (whew, quite a mouthful). Asus showcased this tablet at CES 2013 and was ostensibly
