

actually complete a purchase successfully. This is why we have two chapters dedicated to both these concepts. So the next time you're gearing up to buy a phone during a flash sale, you can better your odds of getting what you want. The same goes for EMIs. It isn't always convenient and there are obviously going to be a few hidden charges but most stores will not inform you about all of these. So, let us guide you through the different types of EMIs and which one would be the best for you.

Lastly, there are multiple websites and tools that allow you to track the prices of products across multiple stores. Then there are tools that automatically apply the best coupon code to save your money. If this wasn't enough to grab your attention, then you probably don't shop online or have deep pockets. So why not share this FastTrack with someone who might benefit from the tips and tricks mentioned?

We're always listening to what you have to say. If you liked this FastTrack or didn't like it, then drop us an email on editor@digit.in. Also, if you have any suggestions for future issues of the FastTrack, you know how to reach us.
