Unity Setup in XCode

This will run the ARKit session and launch the view from the app.

```
func renderer(_ renderer: SCNSceneRenderer,
             didAdd node: SCNNode,
             for anchor: ARAnchor) {
    DispatchQueue.main.async {
        if let planeAnchor = anchor as? ARPlaneAnchor {
            #if DEBUG
                let debugPlaneNode = createPlaneNode(
                    center: planeAnchor.center,
                    extent: planeAnchor.extent)
                node.addChildNode(debugPlaneNode)
            #endif
            self.messageLabel?.text =
```

Setting up XCode in Unity
