MailSpring

Brief Description:

Do you desire a new experience with your e-mail client? Then your best option is "MailSpring." It's an open-source software which has great advantages too. It has a unified inbox, multiple accounts such as Office 365 & IMAP, advanced shortcuts, lightning-fast search, and great themes and

layouts. Its user friendly software is usable in almost all the famous operating systems such as Linux, Mac and Windows. You can create a beautiful and custom signatures with images. With its unified inbox, you can get a lot done in a very short amount of time. MailSpring supports almost all the major email providers such as Yahoo, Office 365, iCloud, Gmail, IMAP/SMTP and Outlook.

Why You Must Get It:

Does your existing email client have a translation option? MailSpring does. As business and trading occurs in every language around the world, MailSpring translates your messages communicated in English into Russian, Spanish, German, Chinese, and French right from the drafts. Spell check might be a normal feature in major email clients. MailSpring also hosts this feature., so you won't miss it. It automatically detects the language you use, you don't need
