

player, security guard, beekeeper, and bionic sniper to name a few, then the user will pick out some traits in both positive and negative areas. The user will then select a particular name from the game's spectacular name generator, and later the character will be appear in any one of a number of scenarios of choosing, from the relatively safe evacuation shelter to a literal burnings of the building that are surrounded by death.

The dangers that are faced by you will include zombies, some deadly security robots, sickness from the flu to fungal infections, plagues, insects that are enormously mutated, wild animals that are both natural and zombified, unknown origins of the demons and monsters and then your own stupidity, that is very deadly as well.

GNU Chess

Brief Description:

GNU Chess is an online chess game which was launched by Richard Stallman in the year 1983, as an operating system which will be put up together by the people.

The primary goal of GNU is to provide Unix-compatible systems, which will be 100% free software. The system name, GNU is not a UNIX, but kind of a tribute for some technical ideas of a UNIX, but at the same time it has been said that the GNU is something very different while comparing with the rest. Scientifically, GNU is same like a UNIX. But comparing with a UNIX, GNU will give freedom to the users.

Why you must get it

GNU system is containing all the various kinds of official GNU software packages and it also includes some non-GNU free softwares too, such as X Window System and the TeX. As the GNU system is not a single static set of the programs, the distributors and the users can select different kinds of packages as per their needs and the desires. Still the result vary for the GNU system. Basically, the work on the GNU will be ongoing with the goal to create a system which will give the best freedom for the computer users. This GNU packages will also include the applications that are user-oriented, libraries, games, utilities and all the programs are offered to the users.
