

- **Custom Conversions:** It enables you not only to optimise but also to track actions by using the FB pixel and the URL related to your 'thank you' page.
- **Standard Events:** With the help of a Standard Event code, it is possible for you to see how many conversations you have had so far and also how much per conversion you are earning the profit.

Facebook Pixel

Now comes a million-dollar question whether to use custom conversion or a Standard event. Well, if you intend to track a page that does not need a data quality, you may consider using a custom conversion. If you run an E-commerce business and intend to categorize various types of specific events, you may perhaps consider using standard events.

There are some great strategies here. Here's a list of a few powerful strategies for using FB pixel Ad -

- Write an engaging content on your website.
- Integrate a relevant lead magnet opt-in related to the content
- For that opt-in, add a FB pixel on the 'thank you' page with a Standard Event code.
