

Conversion Tracking

results with the help of a placement. You may opt to edit your ad sets to discard all other placements. It will enable you to achieve your goal related to optimization of the ad money by enabling you to compare the cost-related to the ad set across placements.

Decoding the secrets related to Conversion tracking.

Optimizing your FB Ads is a different thing and tracking conversion rates is altogether a different ball game. An ad campaign that is not competent in optimizing your ROI must be either discarded or revamped but how would you figure about the effectiveness of it. Well, you simply need to
