

Head to the Settings in Twitter to control what Twitter shows you

Conversion tracking

Twitter has a powerful conversion tracking system that enables you to keep track of the people who are viewing your account and website on various devices. This has direct effects on your sales as the interest that people show in your company is a reflection of the performance that you have put in along with your team.

For example, if someone viewed your commercial on their phones and then viewed the same on their desktops, then it is a sign of interest on their part. You can reap the benefits of that by giving such people more of what they need from you.

Ethics of the platform

Twitter has some stringent laws regarding a few things. These are mostly the ethics of the platform that people are supposed to follow.

1. Violence is condemned: Twitter condemns violence and no user or company is allowed to threaten anyone here. Social media is often misused in these respects. People are seen threatening one another publicly. Such actions are highly discouraged on Twitter.
2. Child abuse and sexual harassment: There should be nothing promoting child abuse and sexual harassment. With the increase in child trafficking across the world, most of its roots are possibly in exchanges on social media. If any such hints are brought to the notice of the concerned department on Twitter, strict actions are taken against the same.
3. Harassment or sexual threats: Sexual threats or harassment of any sort against anybody is strictly prohibited on Twitter. The authorities believe
