

Audience Reach

Views and numbers are one of the most important criteria for businesses. YouTube works as a medium to make it possible to reach its audience.

With YouTube you can do personal branding

It still ranks ahead when it comes to hosting videos. When it comes to audience reach, from the advertisers' point of view, it is the best medium for generating views and disseminating information.

Audience Profile

For any business, it is necessary to be well-abreast with the stats and figures. Here are a few facts surrounding the audience profile of YouTube:

- More than 1.9 billion users, which are half of the total of internet users, have an account on this platform.
- The age group using YouTube ranges from teenagers to people over 75 years of age.
- It is available in over 80 languages. Thus, there is no hindrance for people. Even if you are not accustomed to a language, you can browse videos in a language you are comfortable with.
- It was the top-ranked application in the iOS app store back in 2018.
- The majority of people used YouTube on mobile. An average human spent over eight minutes and 41 seconds on YouTube each day.

Easy Marketing

The application allows the free uploading of videos in addition to adding links, which can
