

What is LinkedIn?

LinkedIn is an employment-oriented social networking platform that was founded on 28th December 2002 and launched on 5th May 2003. Around 65 million professionals from different industries and countries from the

LinkedIn

world use LinkedIn to build their careers and businesses. It provides excellent scope for B2B marketing. In LinkedIn, strategic relationships can be developed. There is a basic difference between LinkedIn and other social media platforms. Here, the number of people that are connected does not matter, who are connected is what matters. Therefore, it focuses on the quality and not on the quantity.

Benefits of LinkedIn

LinkedIn provides several benefits. LinkedIn has the highest ROI over the other top social networking sites. It helps users to generate more sales and drive traffic to their websites through referrals. A company's personal brand can be controlled through LinkedIn as LinkedIn profile ranks very high on Google.

It is the best platform for any company to find investors and best platform for the employees and freelancers to find dream jobs. For the employers,
