Love it or hate it, you cannot ignore the global sensation that Tik Tok has transpired to become.

The ideal time waster, TikTok has changed the way the world views really short videos. Amidst trolls and a serpentine swift moving culture, TikTok is a challenge for newbies to adopt to. Memes were only just getting understood as the new lingo of the app culture, when TikTok happened! TikTok's original parentage was with its app known as Douyin. This is the true Chinese version of TikTok; which still exists. As it mushroomed into several variations; it logged hard with special Chinese laws to get to a position where the app still brings in a smile for most users. In a sense, world access to TikTok is only through Douyin, but it still manages to sweep through. As the rest of the world marvels at TikTok, China only use the app through Douyin.
