

Customer chat etiquette

Not only can your brand value be destroyed and be blocked by the audience but also face the risk of getting banned from the platform altogether if you resort to things like the third party WhatsApp marketing or message bombarding.

2. Be transparent: There shouldn't be a feeling that you have a hidden motive while talking to a potential customer
3. Be Polite and Assume the best of intentions
4. Reply Instantly
5. You should know that you are operating in a very personal environment and you should always try to conduct yourself in a way that you are not breaching the personal space of those you are interacting with.

Conclusion

WhatsApp is still an emerging platform as far as marketing is concerned, and with the new encouraging developments like WhatsApp Business and Advertisements for WhatsApp Status Stories, WhatsApp is fast gaining pace to become one of the biggest marketing platforms in the world that comes with a personal touch of a messenger app. **d**
