

Registering with Google Play

App publication method for Android

Step 1: Register

Register for an account on the Android Developer Console. The Account costs \$25.

Step 2: Creating a new application

- On the Developer Console choose the Publish an Android Application option.
- Fill out the normal details such as Title, Short Description, Full Description.

Step 3: Preparing multimedia screenshots

- Screenshots: Use the Android emulator to take screenshots of your app.
- Hi-res icon: Use a launcher icon and convert it to PNG using gimp.
- Feature graphic: this is often a picture that shows abreast of the highest of the app transfer page in Google Play on mobile phones.
