

which the player could partake in an FFA (Free for All) combat or a team vs team match. The Multiplayer mode is enabled with a real-time voice system and promises seamless team flow for efficient gaming.

The game's interface is easy and effortless with a virtual cross pad on the left of the screen to move your avatar. The right side displays a set of buttons for shooting, jumping and crouching. The upper-left corner has your game map with all the target points highlighted. The game progresses with the safe zone reducing in size and only one lone contender surviving!

RULES OF SURVIVAL

RULES OF SURVIVAL is an online multiplayer Battle Royale game developed and released by NetEase Games. The game is part of a cult series of video games, and has reached about 230 million players globally.

RULES OF SURVIVAL follows the gameplay of your traditional Battle Royale format where players battle it out to be the last man standing. The game features two maps, Ghillie Island with 120 players and Fearless Fiord with 300 players. It begins with the players being transported by an airplane to an island where they are dropped down to their desired play site. Once on the ground, players are required to equip themselves with weapons and equipment scattered across the play site in run-down houses, empty buildings, and ghost cities, as well as players they have eliminated.

The game features different modes, for example, the Gold Mode or the Diamond Mode where players can earn gold or diamonds respectively, as the game progresses. In the third-person mode, the players have the
