

battle royale games. You can now use a shotgun to heal your teammates on fire! See a grenade launcher coming your way? Turn that into a bunker buster and destroy everything in sight! The craziness just doesn't stop there.

Vehicles can also be transformed and optimised as per your needs. For instance, The Cerberus can be optimised into a battle mecha, the Windrider can be changed into a plane, while the Dawnbreaker can be equipped with a destroyer wheel. Crazy, right?

Parting Words

Battle Royale Games are everywhere and if we let the numbers do the talking, it seems like they are here to stay. Their booming popularity and exponential rise recorded in the last two years has cemented it into a worldwide phenomenon of entertainment. So why not blow off some steam and escape reality in favour of the exciting world of battle royale virtual reality? **d**
