

There are several types of character classes to choose from, based on your preference. Healers, assault classes, tankers, and ranged experts to name a few. All of them carry different weapons and have a varied health pools as well. This game, like most MOBAs on this list, features an isometric PoV.

The gameplay is smooth and well churned out, but it can be messy at times. Most of its action occurs at the center, and every time you die, you wheel back to the original position and have to start it all over again. The enthralling atmosphere more than makes up for it. To sum it up, Paladins Strike is an excellent choice for all the MOBA lovers out there who love to game on-the-go.

Legend of Ace

Legends of Ace or LoA is a game from the house of Fancube Technology Limited. Like Paladins Strike, it is a real-time 5v5 battle game, and every game runs for 10 minutes.

The developers designed the game in a way that everything from gameplay to the menu feels superfast. As you begin, you have to choose if you want to be a Tank, Healer, Shooter, or a Ganker.

As for the controls, you get the standard layout of controls at your disposal; the navigation circle is on the left of your screen, and you get the button to shoot and other necessary ones on the right of the screen.
