

Robust servers, faster matchmaking, and ten-minute gameplay along with good graphics make this game a treat to handle.

Heroes Evolved

Reality Squared Games' Heroes Evolved is a hard-worker. It offers a classic RPG experience with a wide range of controls at your disposal. You get to choose from more than 50 heroes to initiate the game, and there are two teams to choose from – Eternals and Ancients. These two teams lock horns every time in a quest to be the best.

The theme here is fantasy, and there are a host of modes for you to choose – Solo, Ranked, Random, Heroes Royale, and against AI. The controls are intuitive, and there is a classic three-lane map for the gameplay. The Heroes Royale is their latest addition and brings several heroes under the hood at the same time.

The graphics are great, and the visual experience is stunning. The developers also throw in regular updates to up the ante and make the game even better. As you advance in the game, you will realize there are several hidden tricks and perks which you may discover.

Matchmaking is pretty fast, and the presence of the clan system helps gather resources faster.

Onmyoji Arena

A MOBA from NetEase Games, Onmyoji Arena, is a unique offering and
