

drop automatically. If you are a fan of MOBAs, this game is not going to disappoint.

Brawl Stars

Brawl Stars hails from the house of Supercell, which also owns the famed Clash of Clans, Clash Royale, and Boom Beach games. The game is a true successor of Clash Royale and is solely for mobile gamers. You won't get any PC or PS versions of this game.

The gameplay is fluid and straightforward, and you get a top-down view. The graphics are unhindered and straightforward; the controls more so.
