

while taking a turn. The game has a rich visuals and design features and relatively-easier beginning sessions.

Card Crawl

Card Crawl is another addition to the list of trending CCG. It is a solitaire card game that has the motive of defeating the enemies by traditional war tactics such as picking up swords, taking health potions and more. The ultimate aim is to clear the deck and kill the enemies.

Ability cards are one major provision in this game. Generally, all the cards with a player are the same. By using the ability card, you can make changes according to the need of the situation. In every game, you are rewarded with 5 ability cards while still in the dungeon. A player is free to win more by exchanging them with the earned gold.

Overall, it is an attractive dungeon crawler where you win over the monsters and stay alive. It hosts 54 custom card decks and the deck includes five different card types: - Gold, weapons, monsters, shield, and health potions.

The visuals and graphics are great. The character's look when damaged starts to appear more like a skeleton. The whole aura of the space is intriguing. The game is short, rich in visuals and addictive.

Cultist Simulator

Cultist Simulator was launched in 2018 and is a narrative-based mystery and experimentation game. It demands you to make up your own cult and
