

addictive. If you are not careful, you might end up spending hours playing Twenty48 Solitaire every day.

Soon after its release, Twenty48 Solitaire became a rage almost overnight. It has caused dozens of websites that teach tips and tricks to get better at the game and certain hacks to help you score in millions. There are also some fan-made Reddit pages online.

The game requires you to merge cards with the same number to score higher. It gets tougher as the game proceeds. It also lets you score mega points with waterfalls and lets you unlock a bonus with a Twenty48 card.

Dissembler game

Dissembler is a puzzle game you would love to immerse into. The reason is partly its premise and partly how they've executed the idea.

The goal of the game is to unravel abstract artwork one color at a time. It has a simple, minimalistic look is also an ingenious puzzle game. While the rules are simple, it is quite clever and challenging. Dissembler offers six new puzzles every day, apart from its campaign and infinite modes, so there is plenty to do, and a whole bunch of art to be uncovered.

Dissembler manages to do a lot with little. While its look and feel are sparse, it is extremely pretty to look at and highly engaging.

Unlike most puzzle games, Dissembler requires you to solve patterns and structures. It is also important to find the right perspective while solving a puzzle, as that is required to get to the bottom of most puzzles.
