

there is also a tiny 'Sign In' bar at the top that gives the player an option to choose how they would like to proceed. The graphics are gorgeous and the way the game opens up is extremely eye-catching. The tutorial is pretty short and interactive. Just the way it should be. The controls are very easy and surprisingly precise. All you have to do is swipe up the dart on to the

board and wherever the touch leaves the screen is the place the dart hits on the board. The rules are pretty standard too. You get three darts in one round and you have to beat the opposite player in scores. This game has a lot of options to choose from. There are four main Gaming Modes. First is the League Mode where you can compete in x01 matches, earn prizes and level up. The second is the Battle Mode. In this mode, you can gamble your
