

precise. Apart from the classic, there is a Resurrection, Capture the Flag, Zombie Mode, Bomb Mode, Knives, Death Match, Arms Race and Sniper. Sounds exciting, doesn't it? The makers made sure you never get bored of this game. There are two teams in this game- Terrorists and Counter-Terrorists with eight characters in each. You can choose to be anyone. There is also the advantage of voice chat in this game which makes it seem more real. There are almost all types of weapons available in this game. From pistols to snipers to grenades, you can find them all as you progress more into the

game. Another really interesting feature is that you can customise skins for your weapons and make them look more personal. You will surely look like a pro. You can also customise each command key according to how you roll. A unique feature that came not to long ago with the new update is the default auto shoot. All you have to do is the point. This is an extraordinary game which is very time consuming, but you'll surely have your adrenaline pumping while playing this one. [d](#)
