

the character to the elite version. Elite characters look more amazing and are more powerful than regular ones, and some of them include Horrific Scarecrow, and Speed Force Flash.

Several modes include Campaign, Operations, Training missions, Challenges, Leagues and Story modes that combine some of the best graphics on mobile.

The controls are relatively simple, quick, and easy to master. Swiping left and right moves your hero forward and backward; up jump and down ducks. Screen tapping performs a punch or kick.

One corner of the screen has a block button, whereas the other corner has three buttons to perform special moves.

Big Fighting Game

Staying true to its name, Big Fighting game has emerged as arguably the best action brawler for Kung Fu Fighting and combat fighting lovers. The game applies unique and terrific combat abilities of the character as he

Make yourself a part of the Big fight!

faces exciting battles against some of the world's best fighters, high-tech robots demonic creatures, and underworld bosses across the eras. These include Deadly Ninja, Dragon Fighter, Boxing & Wrestling Girls in an ultimate showdown. Players perform various maneuvers of martial arts and karate skills, with kicks, punches and multiple destructive combos
