

Battle Royale Games are a timeless concoction of survival, adventure, and scavenging, the three most sought out things, into one adventurous blend of gameplay and roleplaying. The overnight success of Battle Royale Games like Battleground and Fortnite have helped this genre of video games to be included in the mainstream section effortlessly.

In fact, this video game genre has become an infestation of capitalisation and market success with revenues projected to grow to \$20 billion in 2019. PUBG alone has recorded a total number of 400 million active players. With these numbers in sight, the Battle Royale arms race doesn't seem to slow down anytime soon.

Here is a list of the best Battle Royale Mobile Games that will leave you at the edge of your seats.

Battlelands Royale

Battlelands Royale by Futureplay is your classic Battle Royale game suited for everyone. The game features a huge array of Battle Modes to choose from; each lasting up to 3-5 minutes. Easy-to-navigate controls make this a breeze to handle. All you have to do is select your landing zone, drop-in, loot your desired weapons and battle for the coveted spot.

Players have the option of testing the game out solo or going full-on battle mode in Duos. You can also team up with 3 of your friends and battle it up in Squads. As you level up, you will unlock exclusive content by gaining XP points.
