

and there's some mystery regarding another country. Religion is what keeps people united. Although, at present, your country has abandoned religion and is controlled by the latest technology.

Monsters can drain out the life of people merely by touch. Though the story is based on great literary works, what you find depends on what choices you make.

The best part of this game is that the heroes can turn out to be villains, and the villains could end up saving the day! It is all entirely based on how you see the plot and what options you choose as the game progresses.

When you play a subjective situation, you wouldn't have known its significance until later, though it could have been the very foundation on which the game plot evolved.

## Heavy metal Thunder

Cubus Games' Heavy Metal Thunder is a cliché in many ways, you may not know when to expect what comes your way?

The game begins with you waking up in blank space, with a meagre amount of oxygen left in your tank. You don't remember who you are, why you are there, or what you should do.

The first task at hand is to find a safe place. What is challenging about this gameplay is that all the resources you have are limited. The choices that you have to make at the end of each page are not easy.

You have an inventory of items, but at times, you will not find any of the tools useful. Also, the slots in the inventory are limited.

For instance, you may have to choose between a fitness magazine and food. If you thought even for a second that the obvious choice is food, the next situation tells you that the magazine was a better choice.

The situations are well designed, being simple and complex at the same time, if that is even possible!
