

12. Have patience – Don't be in a hurry to post a video or start a challenge. Build a presence or a base first by watching other videos, being an active user who likes or shares other videos, experiment and then make a stronger statement. Learn what the trending topics are. Like memes where users make fun of themselves in public places or perform silly pranks. Or the #ForYouPage, #ForYou and #fyp to tag the videos so that your content can show up on other users' "for you" page which recommends content to the users based on previous interactions. Or the #Slomo tag which allows users to do their pranks, stunts and dance moves in slow motion at the tap of a button. Same goes for twins and costume plays or cosplays where you can see twins in various videos or people wearing elaborate costumes respectively in inventive ways. So follow this mantra - to be successful, first learn the ropes and be active.
13. Track and learn – While you are experimenting with the content, make sure you keep track of your performance to follow the basic management rule of planning, implementing, reviewing and strategising. It's not about having plan A or plan B. It is about seeing what works and what doesn't. You might say that one has to be funny or entertaining; so what's difficult about that? Remember Nobel Laureate Rabindranath Tagore once said, "It is very simple to be happy, but it is very difficult to be simple". Same way, it is very difficult to be simply entertaining on TikTok. But you can measure or gauge the reactions of people on your content and plan your next move accordingly.
14. TikTok has partnered with Appsflyer and Adjust so you can see how you are faring and make adjustments accordingly. You can employ other tracking tools as well. This would help you to engage your target audience better eventually and for a longer time and not just shoot an arrow in the dark.
15. Be genuine – The larger than life photographs of celebrities enjoying holidays are not for TikTok users. The filters of this video-only app are not used to airbrush but to portray real-time situa-
