

# TikTok Analytics

Get started with various analytical tools to get a sense of how your content is being received by the audience

**V**ideo sharing is the most trending form of social media marketing and networking. TikTok has rightly positioned itself in this rapidly engaging space. It allows users to make short videos to express themselves creatively. The app was launched in 2016 and is available in Android and iOS versions on Google Play store and Apple App Store respectively. The popularity of the app has been remarkable since then and is a new addiction for the millennials across the globe, especially India.
