

The Influencer Game

Influencers are increasingly achieving near-celebrity status, especially on TikTok and can be assets to brands

Building Brand Value Through Tik Tok

Social media is influencing the brand market for a decade now. Goods can be unconsciously advertised by social media influencers. Since ages, brands and marketers have tried to mold the thoughts, attitudes, and behaviours of customers, and influencers make that possible. They hold the power of being able to transform tastes, opinions and influence buying decisions.

Movie stars and celebrities influence a great deal when it comes to life-style and fashion. Instagram models make and break fashion trends. Tik
