

to fine-tune its effects. You can reach there through the top menu from Window>Audio Effects.

Enjoy Radio and Podcasts in VLC

Another feature that gets ignored, is the ability to listen to the radio and podcasts directly via the VLC player. Just launch VLC and from the Playlist sidebar under the Internet, you will see the Podcasts and Radio sections. Users then can browse through the Jamendo and Icecast radio servers to find the best music. In case you don't find your favourite Sta-
