

Microsoft Excel

No matter who you are, you've had to get your hands dirty with Excel (or another spreadsheet app) if you're above the age of 15. Let's get you started on your journey towards mastering it...

Microsoft Excel is still the most popular offline spreadsheet application. People use it every day to perform analyses, calculations, and visualisations of information and data. If you know how to use it, you can use formulas to really bring simple data contained within columns and rows to life.

Ever since Excel 2007, the amount of rows has been increased from 65536 to 1048576 – increased from 2^{16} to 2^{20} . It means that there are a total of 1048576 rows available in Excel 2020. Since Excel 2007, the number of
