

cleaning your gadgets properly, diagnosing why your PC suffered from a Blue Screen of Death (BSOD), securing your Wi-Fi, speeding up your slow PC and more. Some of these solutions require spending a little money in upgrading your hardware while the rest can be executed without any extra moolah being spent.

We fully realise that we're just scratching the surface with these guides and there would be a lot more problems that you would like solutions for. So this will be the first part of many more "How to Guide" booklets that we plan on publishing. No, we are not replacing the regular FastTrack. We'll just slip one of these in for our special issues. However, we'll need your assistance in pointing out the problems to which you are seeking solutions. To do that you can reach out to us on email at editor@digit.in or you can hit us up on any of our social media handles.
