

4. Use emojis to react

Suppose that you are muted in a meeting. Under these circumstances, you can express your thoughts with emoji reactions. React with a clapping emoji or by sending a thumbs up. If you wish to express yourself with a reaction, then you have to click the reactions tab at the bottom of the screen. You can find it on the same panel as Mute Video and Audio to the right and choose the one you want. The screen time for each emoji is only five seconds.

If the meeting organizer has enabled the option of non-verbal feedback, participants of the meeting can make use of icons like raised hand next to their name for communicating. Every participant can see each other's feedback.

5. Make use of keyboard shortcuts

Zoom comes with many keyboard shortcuts that will help you navigate through the desktop app without using your mouse.

Some standard keyboard shortcuts include:

- F6- Navigate among Zoom popup windows
- Alt+V-Start/Stop Video
- Alt+A-Mute/unmute audio
- Alt+M- Mute/unmute audio for everyone except host
- Alt+S- Launch share screen window and stop screen share

You can go through the remaining keyboard shortcuts in the Zoom's user guide. There is also an option to customise shortcuts by clicking on Settings>Keyboard Shortcuts in the Zoom desktop app.

6. Enable the gallery view

When you enable a gallery view, it will let you see and hear everyone involved in the meeting. All you need to do is click on the tab with the label gallery view in the top right corner. If the meeting involves 49 or less, then you can see all of them on one page. If there are more participants in the
