

amount of payment that a beneficiary can receive. However, customers will be allowed to send a maximum of Rs.1 Lakh through the app.

Money is directly debited or credited to the bank account. Thus there is no need to recharge your wallet to be able to send money. No transaction fees are applied, which means customers can make as many payments as they wish.

Activating BHIM UPI and Adding a Bank Account

Before activating the BHIM UPI, make sure that the app is updated to the latest version.

- Step-1: Login to the Paytm app. On the home screen, click on the BHIM UPI option.
- Step-2: Choose the bank from the list available, and wait for the verification to be completed by the bank.
- Step-3: Once the account is verified, proceed to create a new BHIM UPI ID.

Setting BHIM UPI ID

- Step-1: Login to your account. Make sure that your account is linked.
- Step-2: Proceed to set a new BHIM UPI PIN after the verification is successful.
- Step-3: A new UPI ID is created if it hasn't been produced earlier, and is linked to the bank account.
- Step-4: The UPI ID thus created is in the format `yournumber@paytm`. Once this is done, the QR code will be auto-generated.

Sending Money through BHIM UPI ID on PayTM

- Step-1: Login to the Paytm account. From the home screen, find and click on the “BHIM UPI” option.
- Step-2: Choose the option “Send Money”. You will be asked to enter the beneficiary UPI ID.
- Step-3: Enter the amount to be transferred.
- Step-4: You will now have to authenticate the transaction with a UPI PIN and then confirm the payment.

Receiving Money

- Step-1: Login to your Paytm ID. Click the “BHIM UPI” option on the home screen.
- Step-2: Choose the “Request Money” option.
